

The Trip.

"Aqua-Culture Dept T.S.I.T". Change of Date to:-
22nd August 1987. Time 11 am At Campus Alanvale
Launceston.

We will be welcoming members from the Launceston
Aquarium Club as they will be joining us on this
tour of the Aqua-culture dept, they are planning to
have something for us to do in the afternoon, this
should make it a full and enjoyable day for everyone.
Please all make the effort to come as it will be a
great day for the young and older.

Many thanks to our friendly Inspector Mr Brian
Vanderfeen for all the useful information he has
loaned us, the other ideas and things that will help
our club members alot.

Help Wanted.

Can you put a few words together and make some
sort of sense or nonsense, as we need your help
before our two finger typist goes crazy from
brain strain. So, if you write poems, or even
if you've got the odd fish joke up your sleeve,
then drop a line to your brain strained and
slightly crazy two finger typist before she goes
off the deep end and leaves her fish hungry.

Executive Officer:- Kathy Butler
64 Tasman st D/port.
Phone 246670.

native fish species of Australia and New Guinea

CLUB NEWS

NEW MEMBER.

Welcome to our new member "Karen Stingel" and family
members Brian, Robyn and Glenda, We hope they enjoy
the activities and have a fishful membership.

PLEASE NOTE.

We have the use of "DEVONPORT HIGH SCHOOL LIBRARY"
to hold our meeting's in future, This will be of
advantage to all of us as it is situated in a very
central position in Best st, Devonport.

Library entrance is from Best st, there should not
be any problems with parking in this area as
plenty of car park's around this area.

Due to school policies, NO SMOKING IN BUILDING'S.

A RAFFLE.

Will be held each meeting, 10c a ticket, to help
with club fund's.

Sick list.

A get well wishes to our Editor TWO FINGER MAC,
hope your on top very soon, also that Peter Tonelly's
back is right and ready for another field trip

GOOD NEWS

Our "Survey of Native Fishes" permit was issued by "Inland Fisheries Commission" and is valid from 1st July to 31st December 1987.

PERMIT and RULES.

Our permit has been renewed and extended to cover rivers and tributaries of the North-West Coast, including those of the Mersey River drainage in the East, to Arthur River drainage in the West. Collecting sites are to be above areas of tidal influence.

All previous conditions apply to this permit, and below are the conditions to refresh your memories:

"IMPORTANT"

It is vitally important that all members understand and comply with the rules and regulations under which our permit has been granted.

1. A maximum number of 10 specimens of each species may be collected by each member each trip.
2. This permit does not include the collection of the "Australian Grayling" (Prototroctes Maraena). The above fish is a protected species.
3. The local area inspector must be given advance notice of all collecting trips.
4. Any fish collected under this permit shall not be sold or offered for sale.
5. The habitat survey form must be completed including No of fish and species taken and returned to the executive officer after each trip.

6. The membership card of the "ANGFA North-West Tasmania Regional Group" is to be carried whilst collecting freshwater fish and must be produced, upon request, to an officer of the Inland Fisheries Commission.

7. All fish other than those for which the permit applies, are to be returned to the water unharmed.

8. The method of our permit is by hand net only.

NEXT MEETING

When: Tuesday 11th August 1987
7.30 pm for 8.00 pm

Where: Devonport High School
Library.
